# WRIGLEY'S SASKATCHEWAN DIRECTORY

VOLUME ONE

1921-22 *PLATE* TEN DOLLARS

PRESENTING

## YEAR BOOK OF SASKATCHEWAN

A COMPILATION of the WONDERFUL RESOURCES  
OF THE PROVINCE SUMMARIZED FROM OFFICIAL  
SOURCES.

## GAZETTEER & ALPHABETICAL DIRECTORY

DESCRIBING 2117 CITIES, TOWNS, VILLAGES AND  
SETTLEMENTS. SHOWING BUSINESS AND PRO-  
FESSIONAL FIRMS AND LEADING CITIZENS. INCLUDING  
A LIST OF TRADE-NAMED ARTICLES MANUFACTUR-  
ED OR REPRESENTED IN SASKATCHEWAN.

## CLASSIFIED BUSINESS DIRECTORY

EMBRACING A STANDARD INDEX OF THE BUSINESS  
INTERESTS OF THE PROVINCE LISTED UNDER  
600 CLASSIFICATIONS CONSTITUTING A COM-  
PLETE AND AUTHORITATIVE BUYER'S INDEX—USED  
BY DOMINION AND PROVINCIAL GOVERNMENTS,  
CANADIAN TRADE COMMISSIONERS, PURCHASING  
AGENTS, IMPORTERS AND EXPORTERS. COPIES  
OF THIS DIRECTORY ARE PLACED GENERALLY IN  
LARGER CITIES THROUGHOUT THE WORLD.

SUBSCRIPTION: TEN DOLLARS

# KING'S HOTEL

REGINA, SASKATCHEWAN

REGINA'S LEADING AND FINEST HOTEL

H. R. PETERSEN  
Prop. and Mgr.

"One of Canada's Exceptional Hotels." Exquisite appointments in which the comfort and convenience of guests are the first essential.

A modern building, ideally arranged, handsomely furnished and centrally located. The unexcelled cuisine and smart service in the dining and banquet halls have made this hotel the epicurean resort of the Northwest.

Especially conducted with the idea to please the commercial, theatrical and tourist patronage, both as to price and service.

150 Rooms; 75 Baths.

American Plan.

Spacious Sample Rooms, \$1.50 per Day.

Rates:—Detached Bath, \$4.50 and \$5.00; Private Bath, \$5.50 and \$6.00; Parlor Bedroom and Bath, \$8.00, \$9.00 and \$10.00; Twin and Standard Beds.

Maximum of comfort at a minimum cost for permanent guests and parties.

FIVE-PASSENGER 22-45

Every McLaughlin Owner esteems his car because of its dependableness—Its ability to "come through." To this the new 1921-22 McLaughlin Models bring improvements and refinements that add to the joy of possession of every McLaughlin owner.

A new, graceful, low, streamline body; a more roomy interior with comfortable seating arrangement, and a resilient spring suspension which makes riding delightful, are but a few of the new features.

# CYLINDER GRINDING

  
 Utmost  
 Accuracy  
 Guaranteed

  
 Special  
 Prices on  
 Ford and  
 Fordson  
 Cylinders

The Heald Cylinder Grinder

**W**E have a separate department devoted exclusively to grinding gas engine cylinders and fitting with over-size pistons and rings. We use Heald cylinder grinding machines in our shop, together with a Landis machine for grinding pistons. Our method possesses great advantages over ordinary reboring or reaming at no greater cost.

## EVERYTHING IN PAPER

### CLOSE TO YOU

Head Office:  
Vancouver, B.C.

Other Branches:  
Winnipeg  
Calgary  
Edmonton  
Victoria

The house of Smith, Davidson & Wright Ltd. has branches located at convenient points throughout the Western provinces. Complete stocks are carried in all these warehouses. These make it unnecessary for dealers and others to tie up funds in heavy orders.

We carry the stock for you.

# Rosetown

is situated on the Goose Lake Line of the C.N. Ry., 72 miles southwest of Saskatoon, and on the Moose Jaw Lacombe branch of the C.P.R.

It is the centre of one of the largest grain farming districts in the Province, with a small portion of the district suitable for mixed farming. The residents of this district are practically all Anglo-Saxon.

The town has a population of 1,050, has a large hospital supported by the town and 4 adjacent Rural Municipalities, which provides free treatment for all resident ratepayers of these municipalities.

There are 8 elevators here with a capacity of 350,000 bushels.

Exceptional educational facilities are provided, in a first-class public and high school.

The town is lighted by electricity, furnished by a private corporation.

A rest room is maintained in the town for the benefit of those coming in from the rural district. We have a strong agricultural society and a good live Board of Trade.

The town owns a large rink, which provides winter sports for the town and district and summer sports are also provided for.

The Saskatchewan Government have a central telephone exchange at this point, which is connected up with any point in the Province. This exchange also provides service for seven rural telephone companies, controlling at this point, rural lines now in operation cover a distance of over 300 miles of the rural district. Practically every part of the entire district is now served by telephone.

This district will be served shortly by three provincial highways.

The town is also served by the Red and Blue lines of the Dominion Trails Association.

The climate of this district is excellent. The district is not subject to either hail or frost, and a complete crop failure is practically unknown. The average wheat yielded for the district last year was 18 bushels per acre.

Raw farm lands can still be secured at from \$20 to \$35 per acre, and improved lands can be had at prices ranging from \$35 to \$60 per acre.

Mayor—Chas. Taylor.

Clerk and Sec.—Jas. W. Heartwell.

## ROSSMAN

a farming district and station in S2 T11 R21 W3, in Battleford Dom. Elec. Dist., Battleford Jud. Dist., and Mun. No. 439, 2 miles north of Cut Knife, on the C.P. Ry., and on C.N.-G.T.P. Ry., 21 miles west of Battleford.

## ROTAVE

in SW24 T13 R30 W1, in Qu'Appelle Dom. Elec. Dist., Moosomin Prov. Elec. Land Reg. and Jud. Dist., and Mun. No. 121, on C.P. Ry., 3 miles southeast of Moosomin. This is simply a passing siding on the C.P.R. and is not used for any other purpose. All business of the district is done at Moosomin.

## Rosthern

In the Electoral Division of Rosthern, on Canadian National Railways, 50 miles south of Prince Albert and 42 miles north of Saskatoon—a live town in one of the best agricultural districts in Western Canada. Farmers prosperous and going into mixed farming and dairying to a large extent. The home of Dr. Saezer Wheeler, world famous wheat breeder and experimenter. Dr. Wheeler has won six world sweepstakes for spring wheat and has recently developed two new wheat varieties, Kitchener and Red Jobs, which strains promise to be of inestimable value to the prairie farmers of the west.

In 1920 Queen's University conferred upon Mr. Wheeler the Honorary Degree of Doctor of Laws. This is the first instance where a Canadian University conferred an honorary degree upon a practical farmer for outstanding service to his industry. Population 1400.

Mayor—R. S. Fleury.

Councillors—F. S. Roubeau, Dr. E. Penner, J. J. Klauassen, A. K. Hamm H. H. Henschel, D. A. Welk. Town Clerk—H. C. Corbett.

# SASKATOON

Saskatoon serves a vast area in the most famous wheat growing territory in the world. Saskatoon is the youngest of the important cities of Western Canada. Twenty years ago when cities like Vancouver and Winnipeg had attained greatness, Saskatoon was not even an incorporated village. Today it is a modern city owning all its public utilities, such as water supply, electric light

and power, street railway, parks, and public library.

Saskatoon has 62 miles of graded streets, 18 miles of which are boulevard, and 6 miles paved with asphaltic concrete, 54 miles of concrete sidewalk, and 15 miles of board sidewalk.

Population, Jan. 1st, 1921, a very conservative estimate, 39,000.

MUNICIPAL GOLF LINKS, BATHING BEACH AND CANOEING ON THE RIVER AT SASKATOON

**A CITY OF HOMES, CULTURE AND EDUCATION**  
 Unlimited water supply for every purpose, adequate for all time.

**MODERN FILTRATION PLANT**  
 Insures the water to be germ free and pure.

**EDUCATIONAL FACILITIES**  
 Unsurpassed in any City of similar size anywhere on this Continent.

# SASKATOON

SOME OF THE BUSINESS BLOCKS IN SASKATOON

Saskatoon's picturesque site on both banks of the broad and swift flowing river and its central position in the province insured its choice as the seat of the University of Saskatchewan.

Saskatoon is also the geographical centre city of the three Prairie Provinces, on all three lines of railway

and the midwestern headquarters of the Canadian National Railway, therefore the logical location of many wholesale firms. The territory tributary to Saskatoon aggregates 47,000 square miles, with 2,500 miles of operating railways and embraces a number of large towns and a host of small villages.

## Shaunavon

a town in S17 T8 R18 W3rd, Maple Creek Dom. Elec. Dist., Cypress Prov. Elec. and Jud. Dist., Swift Current Land Reg. Dist., Mun. No. 78, on C. P. R. 118 miles west of Assiniboia. Has Govt. telephones, C. P. telegraph and Dominion Express. This is a divisional point on the Weyburn-Lethbridge Branch, and is also reached by livery, from the main line of the C. P. R., from Gull Lake, 25 miles north. It is a fast growing town with a present population of 1300 and bids fair to be one of the best towns on the south lines. At present it has five churches, public and high schools, three banks, which have very fine buildings, hospital, flour mill and a cold storage plant besides the usual fine assortment of retail stores. The town is lighted by electric light supplied by a privately owned plant. There is a fine picture theatre here with stage for movies and drama. The district is adapted to wheat-growing and ranching, and a complete crop failure is practically unknown.

## SHELLBROOK

Shellbrook  
Saskatoon  
Saskatchewan  
Canada

successful in producing the Provincial championship wheat in 1920, as well as numerous other prize winning exhibits. There are some excellent fields of grain owned by farmers in the district, which is generally conceded to be an ideal mixed farming country. Shellbrook is fortunate in having an excellent four-roomed school with high school facilities. There are Anglican, Presbyterian and Roman Catholic churches in the town with excellent Sunday Schools attached. There is an active Board of Trade and the prospects for the future development of the town and district are very bright. The hotel is one of the best along the line. The population of the village is close to 500 people and social and athletic activities are well looked after.

Sec. Board of Trade.

McDonald Rev D D postmaster

## STAR CITY

The town is in the heart of the Carrot River Valley, and has a population of about 800. It is surrounded by a rich farming community, the soil being black loam with a clay sub-soil. The rural population is large and the farmers generally are in good circumstances. There are two

banks, five elevators with a capacity of about 200,000 bushels, three lumber yards, five general stores, two hardware stores and other stores, and there are also three churches and a good school. The district is well watered and it is an ideal stock raising country. The land sells from \$25.00 to \$60.00 an acre

## STEWART VALLEY

a farming district in S8 T19 R13 W2, in Swift Current Dom. Elec. Prov. Elec. Land Reg. and Jud. Dists., and Mun. No. 167, 16 miles southwest of Success on the C.P.R., which is the nearest telegraph, express and bank.

## STINSON

a former P.O. Mail now distributed from Colgate.

## STOCKHOLM

In Sec. 25, T. 19, R. 2, W2, in Saltcoats Dom. Elec. Dist., Pheasant Hills Prov. Elec. Dist., Moosomin Land Reg. and Jud. Dists., and Mun. No. 183, has a good safe farming district surrounding it, also excellent railway facilities. It is located on the Pheasant Hills branch of the Canadian Pacific Railway, being distant 80 miles north west of Elkhorn.

The country tributary to Stockholm is traversed on the north by the Little Cut Arm Creek and the famous Qu'Appelle River on the south, while the Grand Trunk Pacific Rly., also lies a few miles north of Stockholm. This district being contiguous to the fertile Qu'Appelle valley, naturally abounds in the picturesque, wherein is revealed nature's handiwork in her innumerable and ever changing, but none the less pleasing aspects.

The rolling prairie, interspersed with small lakes, ravines and creeks, with clumps of Poplar growth merging into belts of larger trees suitable for building logs, promiscuously dotted about, together with the luxuriant carpet of rich native pasture, besides being replete with the picturesque, all combine unequivocally to proclaim this place as an ideal mixed farming region.

The rolling, bluffy prairie land reversed by the rivers, enjoys a splendid drainage throughout. The soil consists of a rich black loam about 12 inches deep, with a good moisture-retaining sub-soil of clay, excellent crops of grain being successfully raised therefrom. As one would naturally expect from a soil of this nature, large areas of the fertile Virgin prairie in this locality has been brought under the plough, and the success attending the varied

farming operations carried out thereon is a sufficient criterion of the good land that the farmers have to deal with. At a rough estimate it is computed that the amount of new breaking for the past season showed an increase of 40% over the previous seasons. The grain yields, too, for the past season proved highly satisfactory, the total amount of wheat approximating 300,000 bushels and oats 25,000 bushels, while 200,000 bushels were retained for seeding and feeding purposes.

Prevailing conditions throughout this district adapt it as a good cattle raising country, the bluffy nature of the locality, especially on the south where there is an abundance of rich hay and feed, affording every facility for this highly important and profitable branch of agriculture. Large numbers of animals are raised here, something like tens cars being shipped out of this district last season. Dairying and poultry raising in its varied branches are proving highly profitable to the farmers who have taken it up seriously. Large quantities of butter and eggs are shipped and a considerable amount of cream is sent to the Government creamery at Tantallon. Land in the Stockholm district generally commands good prices and are always good buyers. Good Virgin prairie averages from \$18 to \$25 per acre, while improved can be obtained from \$30 to \$50 per acre according to location. Population 200.

## STOUGHTON

is a village of 450 population and is  
situated on the Souris-Regina branch  
of the C.P.R., and is the eastern ter-  
minal of the Stoughton branch of  
the C.P.R., 36 miles southeast of  
Regina and 35 miles from the Amer-  
ican boundary.

The population is of British ori-  
gin and are alike to the interests of  
the district. Surrounding the vil-  
lage is a district 12 by 24 miles and  
peopled by progressive farmers who  
have good buildings and well im-  
proved lands, devoting their ener-  
gies to growing grain, and the best  
types of horses and cattle. Four  
elevators and brick plant in constant  
use. The village has one up-to-date  
hotel, two general stores, two hard-  
ware stores, three restaurants, one  
lumber yard, two blacksmith shops  
and wagon shop in connection, two  
implement warehouses, an up-to-  
date garage, Ford specialty and an  
auto tire station equal to any tire  
trouble. There are three churches,  
a good four room school, taking high  
school work, skating and curling  
rinks, town hall, picture show, agri-  
cultural society and golf club. Two  
banks attend to the financial wants,  
while agents for insurance, loans  
and lands are well represented. Tele-  
phone exchange, phones. The Stough-  
ton Times has a big printery without  
opposition and serves the news of  
the district weekly.

## Swift Current

is a divisional point on the main line of the Canadian Pacific Railway and the only city in Southwestern Saskatchewan. On January 1st, 1921, it had a cross-your-heart population of 4,500. It is the local commercial, distribution and judicial centre for an area that embraces over 20,000 square miles of fine agricultural territory. By reason of its strategic location, Swift Current is a natural railway centre, and in this regard is enjoying a substantial, practical development, radiating no fewer than three branch lines of the Canadian Pacific. The Swift Current-Empress branch, running northwest, connects with Calgary, via Bassano. A southern branch runs to Vanguard and will eventually connect with the Weyburn-Lehrbridge line to the south. The Swift Current-Archie branch is under construction eastward. It may also be noted that there is a loop line under construction from Leader, on which twenty-five miles of steel is laid, which will make the fourth branch of the above road to connect with the city. The latter line is of great importance as it will open up a vast tract of country of great fertility at present far removed from railway facilities. Swift Current will shortly be connected with the Canadian National Railway, the steel from Gravelbourg being within 25 miles of the city. Completion of this line was promised for 1921, with terminals located, but it is unlikely the road will reach the city this year. Swift Current is 130 miles west of Moose Jaw and 140 miles east of Medicine Hat, the two nearest cities.

Swift Current is noted, next to the district's agricultural prominence, for its splendid and superior public and institutional buildings. It is safe to say that no city in Canada of similar size is quite so thoroughly equipped in this regard. These embrace magnificent churches, public school buildings, hotels, apartment blocks, office buildings, wholesaling plants, court house, telephone exchange, city hall, fire hall, theatres, hospital, etc., in addition to numerous fine, modern residences. All classes of business are represented and exceptional facilities are provided for supplying the outlying communities with practically all requirements of a commercial and industrial nature. Besides numerous wholesale groceries, implement and building material plants, there is a large, modern creamery, with which is combined an ice cream plant that supplies the whole territory, and to which cold storage facilities are to be added shortly. The retail trade is particularly well covered by a large number of first-class stores. There is a weekly and a semi-weekly newspaper, steam laundry, flour mills, aerated water factory, cement products factory, planing mill, numerous elevators, lumber yards, coal sheds, and the usual run of innumerable business enterprises. It is especially noteworthy that Swift Current possesses two hotels not surpassed in the province. Educational

facilities are augmented by a Collegiate Institute, Public Library and business college; while in addition to a very efficient municipal general hospital, there is a privately conducted medical and surgical clinic, operating at a specially-built \$45,000 block uptown. The city owns fine exhibition grounds and race track, which are utilized annually by the Swift Current Agricultural Society for their excellent summer fair. For the benefit of motorists it may be mentioned that Swift Current has four or five fine garages, one of these being perhaps the equal of anything in the province. Ample provision is made for sports of all kinds. There are two fine golf courses, numerous tennis courts, base-ball and football clubs, skating, hockey, swimming athletic grounds, etc. The city possesses several splendid park sites, which will be further developed as finances permit. Swift Current was the first city in Saskatchewan to adopt a town planning scheme, which will take care of the expansion period to the general welfare of the future. Contiguous to the city and easily accessible are two fine summer resorts, one at Lac Pelletier and one at Saskatchewan Landing—that afford motorists fine summer diversion.

The location of a Dominion Lands office and Provincial Land Titles office, together with other institutions functioning for the general judicial requirements, including Provincial Police and Royal Canadian Mounted Police headquarters, add considerably to the importance of Swift Current as a district centre, and are responsible for a not inconsiderable share of the large transient trade and constant stream of community patronage that exists.

Swift Current owns its electric light and water systems, operating extensive services in these departments, as well as in connection with sewage, sanitation, etc. An abundant supply of pure water is among the important assets, the supply being sufficient for all the requirements of a city of 50,000 or more. There is room here for a number of industries to utilize the farm products of the district, and the city has 40 acres set apart for industrial sites which are offered manufacturers at cost.

Swift Current is well supplied with fraternal organizations, and other bodies that are active in the general welfare, including a Rotary Club, Local Council of Women, etc. There is a Board of Trade that includes both urban and rural members, and this body is at all times prepared to give fullest information concerning the city and district to all enquirers.

The Swift Current area may be said to be now entering upon the third stage of its development career. The territory is as yet comparatively young in its agricultural existence. Certainly, there was no such thing as intensive cultivation for farming purposes fifteen years ago. At that time, and for long years previous,

the country was devoted to the pursuit of ranching, and in these endeavors much renown was achieved. Gradually, however, settlement for farming purposes gained ground, and in a few years' time the district attracted widespread attention for its highly prolific grain yields, the quantity and quality of wheat production being nothing short of phenomenal. Very rapid headway was made with settlement from 1910 to 1914, and in certain years settlers literally made wheat fortunes from a single season's operations. Until 1914 there was only one year since the start of farming when there was a crop failure. In 1915 the biggest yield in the history of the district and the biggest acreage averages in the history of wheat growing anywhere in the universe were realized. Averages as high as 71 bushels to the acre were recorded; this being No. 1 hard and weighing as much as 69 pounds to the bushel. Only fair returns were realized in 1916 and 1917, while the following two years were practically failures. In 1920 the returns were below average, although the crop to within a week or so of harvest promised heavy returns.

These recent experiences with dry seasons (in common with several other portions of the province) have caused progressive farmers and community organizations to look about for a solution to the agricultural problems that is apparent, it being quite evident to intelligent husbandmen that it is not exactly profitable enterprise nor good business to pin faith absolutely to bumper wheat yields in order to make a living from the land and to lay up comfortable bank accounts. These experiences, then, may be said to mark the beginning of the third epoch for agriculture in the district—an epoch that promises to effect processes whereby success will be achieved through safe and sane methods.

To these new ends a Better Farming Conference was convened by the Provincial Government and held at Swift Current on July 1, 1920. Here were called together experts from all sections of the continent, and an exhaustive survey was made of the whole agricultural situation. An immediate result of this conference was the appointment of a Royal Commission which travelled through Southwestern Saskatchewan and accumulated a mass of data that is of a highly important character. This commission is still operating and it is conservatively estimated that the final results of its endeavors will be worth many millions to the economic progress of this portion of the Province. The commission found that there were farmers in the district who, despite drought, had never experienced a single failure. The methods of such men were recorded. For one thing it was found that many were getting excellent results from the planting of spring and fall rye. The necessity for crop rotations was brought home in pronounced form, as also was the need for improved tillage methods. It is becoming known that certain feeds will always yield profitably; and, above all, it is the confirmed opinion now that mixed farming must sup-

plant the so-called "grain mining" upon which so many farmers depended to get rich quick to enjoy the beaches of California and Florida in winter months.

In 1920 the Dominion Government also took an active interest in the efforts for a solution to the problems of the area, and decided to at once establish an Experimental Farm at Swift Current. Actual work on this farm was started in the spring of 1921, with the breaking of 485 acres of land and the erection of several buildings needed immediately. It will probably take five years for this farm to demonstrate beyond doubt the utmost that is to be gained from the rich lands of the wide area involved. The steps by both Provincial and Federal Governments, however, are lending a vastly increased spirit of confidence to the farmers, and they will unquestionably prove of immense future benefit.

The writer believes that these remarks are important because of their potential value. Because these steps are being taken by Swift Current district does not mean that the district has disadvantages greater than other districts. Rather, it means that the farmers do not purpose going on blindly with agricultural development year after year. As soon as they knew they were confronted with vital problems they took immediate steps to rectify mistakes and to solve their adverse conditions. It would have been vastly better for the whole of Western Canada had other and older districts taken similar action when they passed through their periods of even greater adversities (for every major section of the country has known its period of barren years). As a matter of actual fact, the official statistics issued by the Provincial Department of Agriculture will show that even for the past six years the Swift Current district stands well up among the other eight official agricultural areas of the Province in the matter of rainfall and in crop returns. It runs, in fact, from the top of the list to at no time lower than fifth place. The Swift Current district, then, within comparatively few years, has graduated from ranching to grain growing to diversified farming. In the latter state of agricultural blessedness there will prove that the territory has entered into its own and is destined to become one of the most important regions that contribute in generous measure to the economic productivity of the nation.

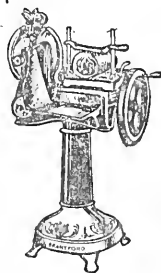

In closing, it may be remarked that the Board of Trade of Swift Current has many valuable trophies to prove the prowess of her district's soil. These include a shield for winning the world's prize for the best all-round district exhibit at the International Dry Farming Congress at Tulsa, Okla., in 1913. In 1915 Swift Current took second in a similar competition at Denver, Colo., but in the Saskatchewan entries easily won the coveted cup for first place. At the International Congress at El Paso, Texas, in 1916, some twenty prizes in all were captured by this district, while in 1917 at Georgia, Ill., the products of the area again stood well to the fore-front.

The price of raw lands in the Swift Current district range from \$20 to \$30 per acre, while improved farms may be purchased, according to location, at from \$35 to \$75 per acre. It is essential that these comparatively low prices will enhance with continued development.

Pres., Swift Current Board of Trade.

## QUALITY, VALUE, STYLE AND SATISFACTION

### SAFETY FIRST

Here is a store that has made good for  
years. It protects you against misrepre-  
sentation. We guarantee satisfaction, qual-  
ity and value. Get your name on our  
mailing list.

### SERVICE

Prompt attention is given to all mail or-  
ders. Send for our circulars and MONTHLY  
STORE NEWS. We feature the lowest  
prices on highest quality merchandise at all  
times.

## Vonda

Vonda is an incorporated town in  
S4 T29 R1 W3, in Humboldt Dom.  
Elec., Land Reg. and Ind. Dist.,  
Vonda Prov. Elec. Dist. and Mun. No.  
372, on the main line of the Canadian  
National Railway, 470 miles west of  
Winnipeg, and 35 miles northeast of  
the University City, Saskatoon. It  
is the market centre for a very fine  
farming district, where frost and  
hail are scarcely known. For a great  
many years Vonda wheat shipments  
were only equalled by one or two  
other points in Saskatchewan.

It is an exceedingly well-developed  
town, industries and businesses nec-  
essary to an up-to-date farming  
centre are well represented. Its po-  
pulation, of 500 persons, is contented  
and comfortably housed in beautiful  
homes, in the best townsite on this  
line of railway, with its wide streets,  
beautiful rows of trees and good  
sidewalks.

The public institutions consist of  
a spacious town hall with a splendid  
auditorium, fire hall and police quar-  
ters; a municipal electric light and  
power plant, housed in a large struc-  
ture and built of brick, tile and  
concrete. The public school is a  
four-roomed solid brick building with  
full basements and modern in every  
way; a public park and grounds and  
buildings of the Vonda Agricultural  
Society.

Five elevators, a large cold stor-  
age plant, machine shops, etc., are

found here, and go to make the  
business of mixed farming and grain  
growing in this community suc-  
cessful.

The district surrounding the town  
is excellently adapted to mixed  
farming, although several large grain  
farms are successfully conducted.  
Water is plentiful and exceptionally  
pure, and the soil is free of alkali,  
stone, sand or gravel, being mostly  
black loam on a clay subsoil. In  
short it would be difficult indeed  
to find a better farming district  
where land could be purchased at  
prices prevailing here.

Full information will cheerfully be  
given by addressing:

E. CLARK,  
Mayor,  
J. H. CURRIE,  
Town Clerk.

**Wadena**

SABBATOWASIS LAKE

The town of Wadena, having a  
population of 850, is admirably situ-  
ated on the C.N. Edmonton to Win-  
nipeg line, about 365 miles west of  
Winnipeg, and 140 miles from Sask-  
atoon, on the east edge of the north-  
east Saskatchewan park lands. Also  
it bids fair to become a railway  
centre, as the C.P.R. have a proposed  
line to run through Wadena from  
Tufford to Prince Albert.

Wadena is the centre of a mixed  
farming district and is long past  
the experimental stage. This is ver-  
ified by the fact that Wadena has  
four elevators, 1 flour mill, large  
stock yards, and has been recognized  
by the C.N.R. as one of the largest  
shipping points for export beef  
cattle.

Wadena has a co-operative cream-  
ery that took second place for out-  
put of the 22 creameries of the  
Province in 1919. The first was  
Regina, a large centre that drew  
from a much larger area.

Wadena has a municipal hospital,  
a high school that is turning out  
many graduates, a large mileage of  
rural telephones and many conveni-  
ences that will indicate the agricul-  
tural development and prosperity of  
the district. All this has been ac-  
complished with not more than 40  
per cent of our farm lands under  
agricultural operation. What will  
complete settlement bring forth?

The "Last West," published by the  
C.N.R. Resources Department of Oct.  
1919, said: "A train load of 27  
cars of farm raised cattle was ship-  
ped from Wadena, Sask., to U.S. mar-  
kets last week. This shipment was  
valued at \$100,000. A lot of stockers  
are being taken into the district to  
be finished."

There is near Wadena one of the  
finest summer resorts to be found  
in Saskatchewan, called Sabbatowa-  
sis. It is within easy reach of a  
town, added to the pleasures of boat-  
ing, bathing, fishing, etc.

Ry. 16 miles west of Battleford which  
is the business centre.

**Watrous**

a town with a population of 1,200, is  
situated in central Saskatchewan,  
midway between Winnipeg and Ed-  
monton, and 60 miles east of Saska-  
toon. A divisional point on the main  
line of the Grand Trunk Pacific, now  
the Canadian National, and with di-  
rect connection by branch line to  
the city of Prince Albert, and by  
C.P.R. to the cities of Regina and  
Moose Jaw. Surrounded by a farm-  
ing district second to none in the  
Province of Saskatchewan. Within  
three miles lies the famous mineral  
lake, "Little Manitou," now acknowl-  
edged to be one of the most popular  
summer resorts in Western Canada.  
The town of Watrous has excep-  
tional school facilities, electric light  
and a never failing supply of water,  
obtained from springs located near  
the town.

Farm land in the neighborhood of  
Watrous sells as high as \$75 per  
acre and the average yield for several  
years has been high, with no crop  
failures from drought in the history  
of the district.  
Mayor—E. Garrett.

Councillors—J. F. Clarke, Geo. Rob-  
inson, Geo. Trenholm, W. E.  
Thornsloe, A. J. Gordon, E. E.  
Miller.

## WATSON

Watson is a busy and prosperous  
little town of 400 people in that  
far-famed agricultural country known  
as the Great Quill Plains. It is loca-  
ted on the C. N. R. 209 miles west  
of Winnipeg, and on the new C.P.R.  
line 135 miles straight north of Regina.

The town has 3 churches, 2 schools,  
4 elevators, 3 implement shops, electric  
lights, telephone exchange, 2  
lumber yards, and a creamery. The  
stores are more substantial and carry  
more stocks than can generally  
be found in towns of this size. The  
King George Hotel is highly praised  
by the travelling public. The Alexan-  
dria House and Gardick's cater  
chiefly to the agricultural and home-  
trade. The Bank of Commerce oc-  
cupies a fine building and attends to  
the financial wants of the district.  
The Watson Witness prints the local  
news and shares in the general pros-  
perity of the district.

The Imperial Oil Co. and the West-  
ern Canada Flour Mills Co. do a  
wholesale business here. Tractors  
are now used on many farms in this  
district. Over 50 autos are owned  
in town, and a car is part of the  
equipment on many farms around.  
The Imperial Oil Co. have erected a  
substantial ware-house and their  
tanks at Watson have a capacity of  
32,000 gallons.

Watson has cement sidewalks and  
crossings, a town hall, police bar-  
racks, town wells and fire equipment,  
all owned by the town, and the de-  
benture debt is almost entirely paid  
off.

The district is well adapted for  
mixed farming. The soil is a deep  
rich black loam, there is a moderate  
rainfall and no crop has been dried  
out. There is no drifting of soil and  
very little damage by hail. Good  
water is found everywhere at  
moderate depth. Poplar bluffs afford  
shelter, and wood is the common fuel  
in every farm home.

The first settlers arrived here in  
1902, and the C.N.R. trains arrived  
here in 1905, and there has been a  
steady progress ever since. Now  
there are graded roads in all direc-  
tions, and rural telephones link up  
with the town and long distance  
lines.

Wheat land can be bought at \$15 to \$30  
an acre. Improved farms sell at \$25  
to \$50 an acre. If looking for a loca-  
tion see Watson.

H. A. Green, President; G. H. Cam-  
eron, Secretary, Watson Board of  
Trade.

Mayor—Hugh A. Green.

Councillors—A. Ketchen, J. J. Felix,

## WESTVIEW

a farming district in S14 T18 R28  
W2, in Moose Jaw Dom. Elec. Land  
Reg. and Jud. Dists., Thunder Creek  
Prov. Elec. Dist. and Mun. No. 162,  
12 miles northwest of Moose Jaw  
which is the nearest telegraph, ex-  
press and bank.

# Weyburn

judicial centre, and a detachment  
of the Sask Provincial Police. The  
Saskatchewan Government is creat-  
ing a mental hospital here at a cost  
exceeding several million dollars.

In the district there are clay,  
sand and gravel deposits. Good  
water. Centre of a rich farming  
district. The soil is a heavy chlo-  
riate loam about two feet in depth  
with clay subsoil. Average price of  
land \$50 raw and \$50 improved per  
acre. Population 4200, and of the  
district 25,000. Further informa-  
tion on application to Industrial  
Commissioner.

## Yellowgrass

An important centre for the farm-  
er, business or professional man,  
situated about twenty miles north-  
west of the city of Weyburn, on the  
Soo line of the C.P.R., about half  
way between Moose Jaw and Estevan,  
having a population of over  
600, and the trading centre for a  
farming population of about 1,500,  
making 2,100 in all.  
Yellow Grass constitutes one of  
the most prosperous and progressive  
centres in Saskatchewan. The soil  
is rich and unbroken with sloughs  
or rough spots, and has not failed  
to produce a crop in twenty years.  
A wheat-producing soil of the high-  
est quality, yet because on most  
farms good water in abundance  
can be secured, the district lends it-  
self to profitable stock raising.  
Some of the finest modern resi-  
dences in the land are found on some  
of the Yellow Grass farms.

The town of Yellow Grass can  
boast of three aims in particular,  
first the finest water and water  
system in Southern Saskatchewan.  
The town is practically immune from

damaging fires. Second, as fine a  
lighting system as there is in the  
country, and at a moderate charge.  
Third, not excluding any of the  
cities, one of the most attractive and  
best kept parks right in the centre  
of the town that there is in the  
Province. Yellow Grass has one  
hotel, four elevators and two banks,  
some thirty business concerns all  
doing good business, a school having  
six teachers doing the complete high  
school work, five churches and five  
resident ministers, and a community  
skating rink with 165 shareholders.  
The Sask Provincial Police have a  
detachment headquarters here. It  
would be difficult to find as desir-  
able a town to settle in as Yellow  
Grass.

## YOUNG

is situated on three lines of railway, 64 miles from Saskatoon, 129 from Regina and 112 from Prince Albert. The lines are C.P.R., the Canadian National and the Grand Trunk. It is in the centre of what is known as Central Saskatchewan and the wheat belt of the West. The land is of a rich clay loam, and almost exceptional crops have been reported, and the average crop yield here is above normal. The value of this land is listed at the very low price of from \$20 to \$30 per acre. Last year the amount of crop was estimated at 61,000 acres, and this year, despite the late season, will be equally as much. The total elevator capacity is about 195,000 bushels, and again last year, despite failures elsewhere, 400,000 bushels were shipped from this point. This does not include what is shipped from the E. A. Bean Farms, who cultivate in the neighborhood of 12,000 acres, close to Young. As a railway centre Young is unsurpassed, being served as stated above, and shipments of all kinds receive ready service. Another leading feature of Young's location is its close proximity to the north end of Lake Manitoba, which waters are known to the world over for their medicinal benefits. Young is only four miles distant from this wondrous and beneficial water, and many citizens take advantage of this close accessibility to the lake, especially those from the north and west of Young. We heartily recommend Young and its district to anyone desirous of or looking for a location. Especially so is it adapted to wholesalers and manufacturers, where electric power and railway service is so essential. Young has a population of about 100, and the inhabitants in and adjacent are of a healthy, industrious and prosperous nature, being Canadians and Americans.

**Why  
 Delay  
 Planting  
 Trees?**

You know  
 trees give

1. Protection
2. Pleasure
3. Profit

Your duty to  
 family, com-  
 munity and  
 self demands  
 your co-operation  
 in beauti-  
 fying Western  
 Canada.

## You Should have on File these Canadian Directories:

**HOTEL RED BOOK.** 12th Edition. 425 Pages. . . . \$ 3.00

A tourist and commercial directory of hotels and resorts in Canada, United States and abroad, citing rates.

**STORAGE AND TRANSFER DIRECTORY.**

7th Edition. 275 Pages . . . . . \$ 3.00

An index of the storage, warehousing and distributing facilities in Canada, United States and abroad, including storage rates.

**WRIGLEY'S ALBERTA DIRECTORY.**

2nd Edition. 900 Pages . . . . . \$10.00

A gazetteer and directory of 1957 cities, towns and villages.

**WRIGLEY'S BRITISH COLUMBIA DIRECTORY.**

5th Edition. 1350 Pages . . . . . \$10.00

A gazetteer and directory of 2209 places in British Columbia.

**WRIGLEY'S SASKATCHEWAN DIRECTORY.**

1st Edition. 988 Pages . . . . . \$10.00

First directory of this Province. Covers 2117 places.

Each of the Provincial Directories contain a year book of Provincial resources, alphabetical directory of each place, and a classified index of all businesses and professions. They have a wide circulation, and are authoritative reference works. Advertising rates on application. Copy of any directory sent on approval.
